I am ok with that. It will mean your other work may be put on hold for a little while since the spill response is a high priority. I've cc'd Kishor on this. He is in the office today and either he or Rick can sign for me. If it's electronic approval, I'll be working until 12:45 today.

Subject: Animas River

I was asked to help with the Animas River spill. I said okay but I think they need supervisory approval, and they are working on some kind of paperwork. They want me to figure out impacts to water wells near the river.
